CHENIN BLANC 2024

Few and Far Between Washington Series

The grapes for this wine were grown in the Ancient Lakes AVA just three and a half our drive south of the winery. The picturesque vineyard overlooks the majestic Columbia Gorge. Set high above the Columbia River, the AVA is known for its cooler sites and white grapes dominate the region. This is rare in Washington and something we sought when looking to source grapes to make some white wine. 50 year old Chenin Blanc vines are also rare and we are so privileged to have the opportunity to make wine from a special block of these vines. Easiest “yes” of the search and I am so excited to make wine from this special vineyard.
